

Town of Sullivan's Island

Water & Sewer Department

843-883-5748

ggress@sullivansisland-sc.com

Water & Wastewater Systems Operator III

Salary Range: \$22.38 - \$27.97 per hour DOQ.

Position Open Until Filled

This position requires a responsible energetic individual that works well with others and will report directly to the Water & Sewer Department Chief Operator.

Sullivan's Island is a barrier Island located across the harbor from historic Charleston. Approximately 2,000 residents live on Sullivan's Island today. The Town is known for its unhurried pace, beautiful beaches and local charm. A strictly residential community.

Drinking water is purchased from Charleston Water System (CWS). Polyphosphate addition at three feed locations is the only treatment provided. An average of .570MGD wastewater is collected and transported to the Treatment Facility via six lift stations. The WWTF is designed to treat .570MGD.

Responsibilities:

Responsibilities include: Performs a variety of tasks related to the processing and treating of water, wastewater and bio-solids to meet state and federal discharge regulations under minimal supervision. Requires the ability to perform process control, NPDES and microbiological laboratory analyses and interpret the results for the Wastewater Treatment Facility. Some Water Treatment and Distribution laboratory analysis is also required. Must demonstrate the ability to comprehend and process data collected and make sound decisions. Also performs construction activities related to the installation, inspection & repair of water distribution and sewer collection systems. On call 24/7 for after hour emergencies and works rotating weekend schedule. Residency requirement is a 20 mile radius max from Sullivan's Island. For complete job description visit our web site www.sullivansisland-sc.com

Minimum Qualifications:

Requires a valid SC driver's license; high school diploma; valid SC "B" Biological Wastewater Treatment and SC "B" Water Distribution and SC "B" Water Treatment at time of hire, and four (4) years progressive experience in the operation/maintenance of an activated sludge wastewater treatment facility, field maintenance of sewer collection system and/or water distribution system or treatment facility. Four (4) years progressive Lab experience at a Wastewater Treatment Facility. For complete job description visit our web site
