

# SULLIVAN'S ISLAND

## LAND MANAGEMENT TALK

**Lecture:** Best Practice Series: “Land Management on Spring Island”  
**Speaker:** Karl F. Ohlandt, Landscape Ecologist, Spring Island Trust  
**Date:** Wednesday, January 27, 2010  
**Time:** 6:30 – 7:30 pm  
**Place:** Ft. Moultrie Auditorium, Sullivan’s Island, SC  
**Sponsor:** The Sullivan’s Islanders Group

Karl Ohlandt is the Landscape Ecologist for Spring Island in Beaufort County, S.C. As an experienced professional with degrees in Biology, Horticulture and Landscape Architecture, he works with community members and landscape contractors on management of natural landscape habitats on Spring Island.

As the Town of Sullivan’s Island considers changing the current land management plan for over 90 acres of front beach protected Land Trust property, The Sullivan’s Islanders group has identified island communities in South Carolina and the Southeast that have developed successful land management plans. Speakers from these communities are being invited to participate in an educational series of “Best Practice” lectures to provide relevant information to all interested Island residents on the most successful practices currently used to manage the natural environment of these islands and enhance residential property values. This is the second speaker in the series.

The talk is free and open to the public. Please join us for an interesting and useful learning experience for all Islanders.
